Acceptance Checklist – Nursing Programs Registered and Licensed Practical Nursing Fall 2025

This Acceptance Checklist is designed to provide a timeline for completion of the essential program admission requirements.

It is important that you read through the entire checklist and note the due dates listed on the Table of Contents associated with each requirement so that you do not miss any deadlines.

If you intend to accept the offer of admission to the Nursing Program, it is critically important that you begin the process for obtaining the required PA Criminal Background Check, FBI, and Child Abuse Clearances immediately. **These documents require time for agency processing and early action on your part will ensure you meet the firm deadlines listed within this documentation and are eligible to register for NURS 101.**

Due to time constraints, the Verification of Residency Form, Photo ID, and background checks should be done as soon as you receive your acceptance packet.

No prior background clearances will be accepted. This pertains to every student, past and current. Acceptance is conditional upon receipt of all three background clearances (see enclosure for further explanation).

Failure to complete all items on the checklist by due dates listed may result in the inability to begin the Nursing Program.

Best wishes for much success as you start your journey down this rewarding career path!

****IMPORTANT BACKGROUND CHECK REVIEW PROCESS INFORMATION****

A Pennsylvania State Police Criminal History Report, FBI Criminal History Record Report, and Pennsylvania Child Abuse History Clearance must be completed by all Health Professions students by the deadline noted within this Acceptance Checklist in order to comply with clinical facility requirements. Acceptance is considered conditional until the criminal background check requirement is met. The timeline is established to allow adequate time for the Health Professions Review Committee to review the report and make a recommendation to the Program Director regarding full acceptance into the program. Acceptance will be rescinded if the documents are not received by the deadline.

Students with three (3) reports reflecting “no record” (no convictions) can consider themselves fully accepted.

If there is a positive record, entry into clinical education will be dependent on the decision of the Health Professions Review Committee after the **background clearances, including the RAP sheet**, together with a written, detailed explanation are uploaded to myRecordTracker® (See Section B). Upon receipt of the statement and clearances, the Health Professions Review Committee will review the reports and make a recommendation to the Program Director regarding the student’s acceptance into the program. Students will be notified of their status within three (3) days of the committee’s review. The student may appeal the decision in writing to the Vice President for Academic Affairs (VPAA) within five (5) working days of notification receipt. The decision of the VPAA is final. The records related to the criminal background process for students will be secured in the Dean’s office.

Clinical agencies have the right to deny access to any student with a criminal record based on that site’s own criteria. In the event that a student is denied clinical placement based on their criminal record, their acceptance may be rescinded.

Students are required to obtain new clearances annually for the duration of their program (this applies to all three background clearances), per the clinical agencies.

*****IMPORTANT*****

POSITIVE CRIMINAL HISTORY REVIEW INFORMATION

If you have a positive background check, a letter with the information described below must be uploaded to myRecordTracker®, along with your background check results, providing further information on the convictions and non-convictions that appeared on your record. It is important for us to gain as much information as possible about these charges to fairly evaluate your acceptance into the program. To that end, we request that you submit, in writing to the program director, the following information:

1. Date of conviction
2. Exact location
3. Offense(s)
4. How did you plead?
5. What was the outcome/sentencing?
6. Are you still on probation?
7. Provide details surrounding the offense(s) with your version of what happened.

In addition to your written statement, please provide all documentation you may possess that relates to the above record(s). Inability to comply with this request may result in dismissal from the program.

Should you have any questions, please contact Thomas Warren Rush, Nursing Program Director at trush@northampton.edu.

FELONY DISCLOSURE FORM

The following information is very important for RN and LPN students. Although this does not affect students until they complete their education and apply for licensure, the Northampton Community College Nursing Department requires proof (by your signature) that you were notified of this law prior to starting the program. Please read this information carefully, sign and upload to **myRecordTracker®**.

Act 1985-109 and Act 1985-110, known as the Professional Nursing Law and Practical Nursing Law of the Laws of Pennsylvania, declares the following:

“...The Board shall not issue a license or certificate to an applicant who has been convicted of a felonious act prohibited by the act of April 14, 1972 (P.L. 233, No. 64), known as “The Controlled Substance, Drug, Device and Cosmetic Act” or convicted of a felony relating to a controlled substance in a court of law of the United States or any other state, territory or country unless:

1. at least ten (10) years have elapsed from the date of conviction;
2. the applicant satisfactorily demonstrates to the Board that she/he has made significant progress in personal rehabilitation since the conviction such that licensure of the applicant should not be expected to create a substantial risk of harm to the health and safety of patients or the public or a substantial risk of criminal violations; and
3. the applicant otherwise satisfies the qualifications contained in or authorized by this act.

As used in this section, the term “convicted” shall include a judgment, an admission of guilt or a plea of nolo contendere. An applicant’s statement on the application declaring the absence of a conviction shall be deemed satisfactory evidence of a non-conviction, unless the board has some evidence to the contrary.”

Your signature indicates that you have read and understand the above excerpts from the Professional and Practical Nurse Laws known as Acts 1985-109 and 1985-110.

Student Release of Information Form For Health Professions Clinical Sites Only

The Family Educational Rights and Privacy Act of 1974 (FERPA) protects the student's educational record from disclosure to unauthorized individuals. As an admitted and enrolled student in this NCC Health Professions program, additional documentation is required to be submitted, including criminal background checks, health and vaccination/titer information, and drug screening results. While these items are not part of the student educational record, they are maintained as confidential by the program/school. Northampton Community College is required to share positive results of criminal background checks and drug screening with any affiliated institution used for clinical education in the Health Professions programs, as well as any pertinent health information requested by the clinical facilities.

- I understand that the clinical affiliate requires that positive results of my background check(s) be shared with the following individuals: the VP Human Resources, Labor/Employment Counsel, VP Patient Care Services, and/or the manager(s) of the unit where the student is assigned for clinical.
- I understand that any requested information will be released to the requestor according to the guidelines outlined in the affiliation agreement between the college and the clinical affiliate.
- In connection with my admission and enrollment in an NCC Health Professions Program and my participation in the program's clinical training opportunities, I hereby authorize the College and its agents to release any and all information relevant to my criminal record, health information, and/or drug screen results to any authorized clinical site representative it deems appropriate in order to determine my suitability to be enrolled in the Health Professions Program and/or to be assigned to a clinical site selected by the College. A photocopy of this release will be sufficient to authorize the release of the information.

Health Professions Medical Marijuana Policy

In order to be transparent regarding the entire drug screening process and the use of Medical Marijuana, Northampton Community College recognizes our responsibility to fully inform students of NCC's policy at the time of acceptance. Please read the following policy carefully and acknowledge your understanding by signing and uploading this form to myRecordTracker.

The Pennsylvania Department of Health is currently implementing the Pennsylvania Medical Marijuana Program, a component of the Medical Marijuana Act (MMA) that was signed as [law](#) on April 17, 2016. This program provides access to medical marijuana for patients with serious medical conditions as defined by the Pennsylvania Department of Health.

At this time, the Federal government regulates drugs through the Controlled Substances Act, which does not recognize the difference between medical and recreational use of marijuana. Under Federal law, marijuana is a Schedule 1 controlled substance, meaning that it is considered to have no medical value. Medical practitioners may not prescribe marijuana for medical use under Federal law.

Students entering any Health Professions Program are required to have urine drug screenings upon admission to the clinical phase of the program and on a yearly basis while participating in clinical experiences. As per current policy, if the results are positive, the student will be dismissed from the program immediately and referred for appropriate counseling.

Students using medical marijuana will not be eligible for clinical, internship, or externship placement in any NCC Health Professions and Science Program, due to the current discrepancy between State and Federal law regarding Drug Free Work Place Act and the MMA. Businesses who are not in compliance with Federal law are at risk for criminal or civil charges; and additionally, may find issue with eligibility for Federal contracts and grants. Additionally, Pennsylvania's Medical Marijuana statute specifically provides that an employer does not have to accommodate an individual in a safety sensitive position if that person is under the influence of medical marijuana. Most positions involving direct patient care will be considered safety sensitive positions.

Students should also understand that under current Pennsylvania State Board law, many health professions licensing boards require drug screening at the time of application for licensure. Similarly, most health care employers will perform routine drug screening as a condition for employment, as these positions involve direct patient care, and are considered safety sensitive positions. **This discrepancy between Federal and State law allows our clinical partners to deny student placement for clinical experiences and the State of Pennsylvania to deny licensure.**

Due to current laws, NCC cannot provide admission to the clinical phase in any of our Health Professions and Science Programs and students who have been admitted and are later to be found positive for medical marijuana will be dismissed from the Program.

I hereby acknowledge that I have read and understand NCC's Health Professions Medical Marijuana Policy.

OSHA INFOSHEET

Respirator Medical Evaluation Questionnaire

Respirators must be used in workplaces in which employees are exposed to hazardous airborne contaminants. When respiratory protection is required employers must have a respirator protection program as specified in OSHA's Respiratory Protection standard (29 CFR 1910.134). Before wearing a respirator, workers must first be medically evaluated using the mandatory medical questionnaire or an equivalent method. To facilitate these medical evaluations, this INFOSHEET includes the mandatory medical questionnaire to be used for these evaluations.

Medical Evaluation and Questionnaire Requirements

The requirements of the medical evaluation and for using the questionnaire are provided below:

- The employer must identify a physician or other licensed health care professional (PLHCP) to perform all medical evaluations using the medical questionnaire in Appendix C of the Respiratory Protection standard or a medical examination that obtains the same information. (See Paragraph (e)(2)(i).)
- The medical evaluation must obtain the information requested in Sections 1 and 2, Part A of Appendix C. The questions in Part B of Appendix C may be added at the discretion of the health care professional. (See Paragraph (e)(2)(ii).)
- The employer must ensure that a follow-up medical examination is provided for any employee who gives a positive response to any question among questions 1 through 8 in Part A Section 2, of Appendix C, or whose initial medical examination demonstrates the need for a follow-up medical examination. The employer must provide the employee with an opportunity to discuss the questionnaire and examination results with the PLHCP. (See Paragraph (e)(3)(i).)
- The medical questionnaire and examinations must be administered confidentially during the employee's normal working hours or at a time and place convenient to the employee and in a manner that ensures that he or she understands its content. The employer must not review the employee's responses, and the questionnaire must be provided directly to the PLHCP. (See Paragraph (e)(4)(i).)

Excerpt from Appendix C of 29 CFR 1910.134: OSHA Respirator Medical Evaluation Questionnaire

To the employer: Answers to questions in Section 1, and to question 9 in Section 2 of Part A, do not require a medical examination.

To the employee: Your employer must allow you to answer this questionnaire during normal working hours, or at a time and place that is convenient to you. To maintain your confidentiality, your employer or supervisor must not look at or review your answers, and your employer must tell you how to deliver or send this questionnaire to the health care professional who will review it.

Once filled out, this form must be given to the PLHCP. This form should **not** be submitted to OSHA.

URINE DRUG SCREENING REQUIREMENTS

Nursing programs at NCC are affiliated with healthcare providers throughout the region. A number of these hospitals now require students participating in clinical education at their site to have a 11-panel drug screen completed prior to attending clinical.

When and where do I go for my drug screen?

Do not do now! You will receive an email from **Sign-Up Genius** that contains an invitation to select an appointment time to have your drug screen done. St. Luke's Hospital Occupational Medicine is our preferred provider for urine drug screens. The test will be performed at both the NCC Bethlehem and Pocono campuses; dates to be determined.

You will be expected to report to the Health Center or noted area at your designated time. It is important that you report on time to allow St. Luke's to service you and fellow students most efficiently and to avoid wasting your time and theirs. The program director will communicate with the Health Center staff to ensure that all students are compliant with the requirement and all student results are negative.

What is the cost of the test?

The cost is \$34.00, payable in cash or by check to St. Luke's Hospital, on the day your test is scheduled.

What if my drug screen is positive?

Students will only be permitted to attend clinical education if they have a negative drug screen. Any student with a positive screen will be withdrawn from the program.

What if I have a Medical Marijuana Card?

Northampton Community College follows Pennsylvania State and Federal laws and guidelines about the use of medical marijuana. Please read the following NCC Health Professions Medical Marijuana Policy and signify your understanding of this policy by signing the document and uploading the signed form to myRecordTracker.

A **mandatory** Hospital Orientation and Paperwork Seminar will be held for all incoming nursing students. This seminar will review details needed to successfully attend clinical experiences in all nursing courses. Information regarding clinical schedules, clinical facilities, and clinical expectations will be discussed. Required hospital paperwork will be completed at this time. Attendance at **one** seminar is required before you can be assigned to a clinical group. Failure to attend this seminar will result in program dismissal.

Please bring at least 2 ink pens with you to complete the paperwork. Thank you!
